Board of Retirement Los Angeles County Employees Retirement Association 300 North Lake Avenue, Suite 820 Pasadena, CA 91101

Re: July 1, 2021 Other Postemployment Benefits (OPEB) Actuarial Valuation

Dear Trustees of the Board:

As requested, we have prepared an actuarial valuation of the retiree medical, dental/vision, and death benefits covering the retired Los Angeles County (County) workers who also participate in the Los Angeles County Employees Retirement Association (LACERA) retirement benefits plan. These health-related benefits are collectively referred to in this report as the Los Angeles County (County) Other Postemployment Benefits (OPEB) Program, or the "OPEB program". The major findings of the valuation are contained in this report. This report reflects the benefit provisions in effect as of July 1, 2021, and the retiree health plan premium rates in effect as of July 1, 2021 and July 1, 2022 received from Segal (LACERA's Health Care Benefits Consultant).

Milliman has developed certain models to estimate the values included in this report. The intent of the models was to estimate the assumed investment earnings, analysis of OPEB demographic assumptions, retiree health claim costs, and annual trends for retiree health benefits. We have reviewed the models, including their inputs, calculations, and outputs for consistency, reasonableness, and appropriateness to the intended purpose and in compliance with generally accepted actuarial practice and relevant actuarial standards of practice (ASOP). In addition, the valuation results were developed using models intended for valuations that use standard actuarial techniques.

The models rely on data and information as input to the models. We have relied upon certain data and information listed below for this purpose and accepted it without audit. To the extent that the data and information provided is not accurate, or is not complete, the values provided in this report may likewise be inaccurate or incomplete.

In preparing this report, we relied, without audit, on information (some oral and some in writing) supplied by the County, LACERA, the Superior Court, and Segal. This information includes, but is not limited to, benefit descriptions, membership data, and financial information. We found this information to be reasonably consistent and comparable with data used for other purposes. In some cases, where the census data was incomplete, we made assumptions as noted in Table C-10 of Appendix C. The valuation results depend on the integrity of this information. If any of this information is inaccurate or incomplete, our results may be different, and our calculations may need to be revised.

In developing these recommendations, we have reflected an estimate of fees associated with the Affordable Care Act (ACA), which was signed into law in March 2010 and subsequent regulations and acts. The OPEB assumptions will reflect changes in future valuations as regulations are released.

All costs, liabilities, rates of interest, health cost trend rates, and other factors under the OPEB program have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the OPEB program and reasonable expectations); and which, in combination, offer a reasonable estimate of anticipated experience affecting the OPEB program. Further, in our opinion, the actuarial assumptions in the aggregate are reasonable and are related to the experience of the OPEB program and to reasonable expectations and represent a reasonable estimate of anticipated experience under the OPEB program.

We further certify that the assumptions and methods developed in this report satisfy Actuarial Standards Board (ASB) Standards of Practice, in particular, No. 6 (Measuring Retiree Group Benefit Obligations). The retirement benefit related demographic and economic assumptions used in this report are based on those developed as a result of the 2019 Retirement Investigation of Experience study, dated January 28, 2020, and approved by LACERA's Board of Investments. The OPEB demographic and economic assumptions are based on the results of our 2020 OPEB Investigation of Experience, dated July 8, 2021. The assumptions used in the OPEB Investigation of Experience were identified, evaluated, and agreed upon collaboratively by the actuaries and consultants representing the OPEB program stakeholders at the time including: Milliman, LACERA's actuary; Cavanaugh Macdonald, LACERA's reviewing actuary; Segal. LACERA's Health Care Benefits Consultant; Cheiron, Los Angeles County's actuary; and Rael & Letson, actuary for SEIU Local 721. Types of OPEB specific assumptions include initial enrollment, healthcare plan and tier selection, spouse age difference, and re-enrollment assumptions. These OPEB assumptions are combined for all of LACERA's agents. The investment rate of return assumptions differs by agent. The investment earnings assumption for the agents that are prefunding through LACERA's OPEB Trust is the expected return for the OPEB Trust. The investment earnings assumption for the agents that are not prefunding through LACERA's OPEB Trust have an investment earnings assumption of the County's general funds' expected return. The 2020 OPEB Investigation of Experience was reviewed and approved during LACERA's March 3, 2021 Board of Retirement Meeting.

OPEB specific assumptions that have been updated since the 2020 OPEB Investigation of Experience study include health cost trend rates updated with information from the July 1, 2022 renewals. These assumptions have been identified, evaluated, and agreed upon collaboratively by the actuaries and consultants currently representing the OPEB program stakeholders at the time including: Milliman, LACERA's actuary; Segal, LACERA's Health Care Benefits Consultant; Cheiron, Los Angeles County's actuary; and Rael & Letson, actuary for SEIU Local 721. LACERA's Board of Retirement has the final decision regarding the appropriateness of the assumptions. The assumptions and methods are summarized in Appendix A.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: OPEB program experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period); and changes in OPEB program provisions or applicable law. Due to the limited scope of our assignment, we did not perform an analysis of the potential range of future measurements.

Given the substantial uncertainty regarding the impact of COVID-19 on plan costs, including whether the pandemic will increase or decrease costs during the term of our projections, we have chosen not to make an adjustment in the expected plan costs aside from what was included in the Segal July 1, 2021 and July 1, 2022 renewals. It is possible that the COVID-19 pandemic could have a material impact on the projected costs.

This July 1, 2021 OPEB valuation is for funding purposes. The data, assumptions and methods, OPEB program provisions as described in Appendix B of this report, and the funding goals serve as a basis for the separate GASB 75 disclosure report. Actuarial computations under Government Accounting Standards Board (GASB) Statement Numbers 74 and 75 are for purposes of fulfilling financial accounting requirements for LACERA, Los Angeles County, Superior Court, and SCAQMD (the agents) respectively. The GASB 75 disclosure report needs to meet the requirements of these standards which include but are not limited to a different discount rate and actuarial cost methodology. A discussion of GASB OPEB Statement 75 applicable to OPEB reporting is in Section 8. Determinations for purposes other than funding purposes may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman's work is prepared solely for the internal business use of LACERA. To the extent that Milliman's work is not subject to disclosure under applicable public records laws, Milliman's work may not be provided to third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third-party recipient of its work product.

Milliman's consent to release its work product to any third party may be conditioned on the third party signing a Release, subject to the following exception(s):

- (a) LACERA may provide a copy of Milliman's work, in its entirety, to LACERA's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit LACERA.
- (b) LACERA may provide a copy of Milliman's work, in its entirety, to other governmental entities, as required by law.

No third-party recipient of Milliman's work product should rely upon Milliman's work product. Any third-party recipient of Milliman's work product, including Los Angeles County, Superior Court, or the Outside Districts, who desires professional guidance should not rely upon Milliman's work product but should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are employee benefit actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

We would like to express our appreciation to LACERA staff members, Los Angeles County, SEIU Local 721, Cavanaugh Macdonald, Segal, Rael & Letson, and Cheiron who gave substantial assistance on which this report is based.

We respectfully submit the following report and we look forward to discussing it with you.

Sincerely,

Robert L. Schmidt, FSA, EA, MAAA Principal and Consulting Actuary

Section 1: Executive Summary

2021 Valuation Results

Exhibit 1	Jul	y 1, 2021	July 1, 2020			
Actuarial Accrued Liability (\$ billions)	\$	21.16	\$	21.30		
Less Assets		2.31		1.49		
Unfunded Actuarial Accrued Liability	\$	18.85	\$	19.81		
Normal Cost Rate		6.78%		7.33%		
ADC as a Percentage of Payroll		16.76%		18.18%		

Overview

We are pleased to present the results of the July 1, 2021 annual actuarial valuation. Several key points from Exhibit 1 are summarized as follows:

- The Unfunded Actuarial Accrued Liability (UAAL) decreased due to a combination of several factors, some of which were offsetting. These included increases due to the passage of time since our July 1, 2020 valuation, claim cost experience losses, trend assumption gains, other experience gains, and asset gains measured as of July 1, 2021.
- The Normal Cost and Actuarially Determined Contribution (ADC) decreased as dollar amounts due to the factors mentioned above. These amounts decreased as a percentage of payroll because Normal Cost and ADC decreased and payroll increased.
- The updated calendar year 2023 estimated monthly Medicare Part B premium and the long-term projected Medicare Part B costs from the 2022 Medicare Trustees Report prepared by the Centers for Medicare and Medicaid Service (CMS), issued on June 2, 2022, are included in the Medicare Part B trend.

Analysis of Change

Exhibit 2 illustrates the sources of change between the July 1, 2020 and July 1, 2021 valuations. The dollar figures are expressed in billions of dollars.

Section A: The expected one-year change represents expected changes in the UAAL and Normal Cost Rate (NCR) due to interest and benefit accruals, net of employer contributions in excess of benefits paid and expected investment return. The cost percentages are based on the assumed July 1, 2020 valuation payroll of \$8,682.2 million, increased by 3.25% per year (the payroll increase assumed at the time of the July 1, 2020 valuation) for one year to \$8,964.4 million (projected as of July 1, 2021).

Section B: The claim cost experience loss includes the impact of updated aging factors. The trend assumption gain includes the impact of the July 1, 2022 premiums and the trend assumption changes. The July 1, 2022 premiums are based on premiums approved by the Board of Retirement on March 2, 2022 and received from Segal as of March 18, 2022. The "Other Experience" gain includes the impact of all other demographic and economic experience. There is an asset gain due to the actual investment returns being higher than assumed. The cost percentages in this section are based on the July 1, 2021 valuation payroll of \$8,981.7 million.

Exhibit 2: Analysis of Change (All Dollar Amounts in Billions)

Sources of Change	A	ctuarial ccrued iability	(A	ssets)	A	nfunded ctuarial ccrued iability	Normal Cost Rate	ADC Percentage	
A. July 1, 2020 Valuation	\$	21.30	\$	(1.49)	\$	19.81	7.33%	18.18%	
Expected One-year Change		1.21		(0.47)		0.74	0.00%	0.06%	
B. July 1, 2021 Valuation Expected	\$	22.51	\$	(1.96)	\$	20.55	7.33%	18.24%

¹ Includes impact of July 1, 2022 renewals

Summary Valuation Results

Exhibit 3 provides a summary of the valuation results for the County, Superior Court, LACERA and the Outside Districts. The following key results are included in the table:

- The total Present Value of Future Benefits (PVB). The PVB is based on a projection of all benefits that are expected to be received in the future for all current members (active, vested, and retired) discounted to the valuation date. The projected benefit payments are discounted using the investment earnings assumption. For the agents that are prefunding into the OPEB Trust (County, Superior Court and LACERA) the investment earnings assumption is 6.00%. This is OPEB Trust's expected return. The Outside Districts are not prefunding into the OPEB Trust. Their investment earnings assumption is 2.30% based on the County's general fund expected return.
- The Present Value of Future Normal Costs (PVFNC). This is the value of the liability attributable to periods after the valuation date, according to the actuarial cost method which is Entry Age Normal (EAN). The PVFNC is the difference between the PVB and the Actuarial Accrued Liability.
- The Actuarial Accrued Liability (AAL). This amount represents the value of the liability that is accrued for periods prior to the valuation date, according to the EAN actuarial cost method.
- Assets. Since the OPEB program is partially funded, this is the asset balance as of July 1, 2021.
- The Actuarially Determined Contribution (ADC). At the direction of the plan sponsors, the ADC is based on the County Normal Cost Rate plus an open 30-year level percentage of payroll amortization of the Unfunded Actuarial Accrued Liability (UAAL). It should be noted that the amortization does not cover interest on the UAAL; in other words, the UAAL will be expected to increase in the following year if all assumptions are met.

Exhibit 3: OPEB Benefit Liabilities and Costs¹ Summary of July 1, 2021 Valuation Results (All Dollar Amounts in Millions)

	 County		Superior Court		LACERA		Outside Districts		Total	
Present Value of Future Benefits	\$ 27,524.8	\$	1,170.0	\$	94.6	\$	15.4	\$	28,804.8	
Present Value of Future Normal Costs	 7,371.8		244.6		28.6		2.4		7,647.4

UAAL payment	 9.91%		12.27%		6.08%		71.43%		9.98%	
Total	 16.72%		18.39%		11.26%		85.72%		16.76%	

¹ Net of Retiree Paid Premiums. May not match other Tables due to rounding.

Comparison of Results to Prior Valuation

Exhibit 4 provides a summary of key valuation results as of July 1, 2021 and July 1, 2020. The July 1, 2021 and July 1, 2020 results are based on an assumed 6.00% investment rate of return (discount rate) for the agents that are prefunding through the LACERA OPEB Trust (County, Superior Court, and LACERA) and an assumed 2.30% investment rate of return for the Outside Districts who are not prefunding through the LACERA OPEB Trust. The investment rate of return reflects the investment policy assumptions described in our 2020 OPEB Investigation of Experience study.

The following key results are included in Exhibit 4:

- A summary of total membership by type of member as of the valuation date.
- Total payroll as of the valuation date. The one-year increase of 3.4% is higher than the anticipated one-year increase of 3.25%.
- The expected paid benefits for the first year following the valuation date. The one-year increase of 3.4% is less than the previously expected one-year increase of 4.4% due largely to lower than anticipated health care premiums. This is based on Table 6 in Section 7 of the July 1, 2020 valuation, which expected the 2020-2021 payment level of \$722.10 million to increase to \$753.96 million in 2021-2022 (as compared to the new expected 2021-2022 amount of \$746.61 million).
- The total Present Value of Future Benefits (PVB).
- The Actuarial Accrued Liability (AAL). The changes in AAL varied by member status and benefit type. The 0.7% overall decrease is primarily a result of the change in the health trend assumption.
- The Actuarially Determined Contribution (ADC). The ADC decreased by 4.7% from \$1,578.6 to \$1,505.1 million. Since the ADC decreased and payroll rose faster than ADC, the ratio of ADC to payroll decreased from 18.18% to 16.76%. As seen in the Analysis of Change in Exhibit 2, this percent-of-payroll decrease is primarily due to the lower-than-expected health care trend.
- Over fiscal year 2020/2021 the OPEB trust assets were assumed to increase with 6% investment returns increasing from \$1.49 billion on July 1, 2020 to an expected \$1.96 billion on July 1, 2021. The trust actually experienced a 2020/2021 investment return of about 28%, driving the actual July 1, 2021 assets to \$2.31 billion. This large asset increase played a part in the 4.8% reduction in the Unfunded Actuarial Accrued Liability over 2020/2021.

² Normal cost and 30 year level percentage of payroll amortization of the Unfunded Actuarial Accrued Liability (UAAL).

¹ Net of Retiree Paid Premiums

² 30 year level percentage of payroll amortization of the Unfunded Actuarial Accrued Liability (UAAL)

Funding Progress

The commitment to prefunding is based on the June 22, 2015 County budget policy, the November 20, 2015 LACERA funding policy, and the Superior Court funding policy communicated to LACERA on November 9, 2021. The County's policy is to increase the contributions by \$56 million each year until the ADC is reached and then the ADC would be contributed. The funded ratio is expected to increase gradually over time. However, the UAAL is expected to continue to increase due to the open 30-year amortization and not paying down the principal. The ADC is also expected to increase over time. The increases in the ADC are projected to be lower than what they would have been absent the ramp up of the OPEB trust contributions.

The funded status is not appropriate for assessing the sufficiency of plan assets to cover the potential costs of settling the liabilities. It is appropriate for calculating the amount of future ADCs.

Section 2: Actuarial Valuation as of July 1, 2021

A. Valuation Methodology

This is a valuation of the retiree medical, dental/vision, and death benefits covering the retired Los Angeles County, Superior Court, LACERA, and Outside District workers who also participate in the Los Angeles County Employees Retirement Association (LACERA) retirement benefits plan. This valuation is performed annually.

In analyzing the GASB liabilities and ADC, we were asked to divide the results into the following agents and agent groupings:

- LA County
- Superior Court
- LACERA
- LA County, Superior Court, and LACERA
- LA County, Superior Court, LACERA, and Outside Districts

The tables in this report present the unfunded liabilities, ADC, and projected benefit payments under the Entry Age Normal (EAN) cost method separately for each of the agents and agent groupings identified above. This method is described further in Appendix A. Due to the low number of members who have service with more than one agent, at the direction of the plan sponsors, the results do not reflect bifurcation of service between agents.

The tables are as follows:

- Table 1 is a summary of the membership and Actuarial Accrued Liability (AAL).
- Table 2 shows the AAL and Normal Cost (NC) by membership type and benefit.
- Table 3 displays the development of the Actuarially Determined Contribution (ADC).
- Table 4 is the Statement of Changes in Fiduciary Net Position (FNP).
- Table 5 shows the gain/loss detail.
- Table 6 has the projected paid benefits by benefit type.

The actuarial assumptions and methods used in the valuation are summarized in Appendix A. The retirement benefit related demographic and economic assumptions used in this report are based on those developed for the June 30, 2021 valuation of the LACERA retirement benefit plan. The OPEB demographic and economic assumptions and methods are based on the results of our 2020 OPEB Investigation of Experience, dated July 8, 2021. These assumptions were identified, evaluated, and agreed upon collaboratively by the actuaries and consultants at the time representing the OPEB program stakeholders including: Milliman, LACERA's actuary; Segal, LACERA's Health Care Benefits Consultant; Cavanaugh Macdonald, LACERA's reviewing actuary; Cheiron, Los Angeles County's actuary; and Rael & Letson, actuary for SEIU Local 721.

The health-related assumptions used in the report were also agreed upon collaboratively by the following actuaries and consultants: Cheiron, Milliman, Rael & Letson, and Segal, and approved by the Board of

Los Angeles County Employees Retirement Association

Retirement. Thus, the assumptions were the result of a collaborative effort by these various stakeholder groups.

Comprehensive medical benefits, dental/vision benefits, and death benefits are provided to all members, who retire and satisfy the eligibility requirements outlined in Appendix B. Retired Local 1014 members are eligible for the Local 1014 Firefighters' retiree medical plan as outlined in Appendix F. Eligibility for the County OPEB program is tied to benefit eligibility under the LACERA retirement benefits plan. Thus, all former employees receiving OPEB program benefits are also members in the retirement benefits plan.

Appendix B includes a description of healthcare Tier 1 and Tier 2.

The active and vested terminated member census data for each of the OPEB program member groups is summarized by the LACERA retirement benefit plan levels in Appendix C. The retiree and dependent data for each health plan and benefit group is also summarized in Appendix C.

A glossary of terms is provided in Appendix D. Summaries of health benefits are provided in Appendices E, F, G, and H.

Appendix I provides historical statistical information on LACERA's membership, liabilities, assets, and costs. There is also a history of changes.

B. Liabilities and Costs

Key Liability Descriptions

A discussion of GASB Statements No. 74 and 75 is in Section 8, Accounting and Annual Comprehensive Financial Report (ACFR) Information.

There are two measures of OPEB program liabilities, the Actuarial Present Value of Projected Total Benefits (PVB) and the Actuarial Accrued Liability (AAL).

The PVB is the present value of the future postemployment benefits payable to current active members and retirees. This value is net of future retiree contributions. The PVB is shown in Exhibit 4 above.

The AAL is the most important measure of liability because it is used to derive the Actuarially Determined Contribution (ADC) and disclosure values. The AAL is the portion of the PVB attributed to periods up to the measurement date. For this report, the AAL is determined under the Entry Age Normal actuarial cost method.

Table 1 in each agent's section below shows the membership as of July 1, 2020 and July 1, 2021. The AAL is summarized by member status and coverage (Medical, dental/vision, Medicare Part B, and Death benefit).

The AAL is shown in more detail in Table 2 of each agent's section subtotaled by benefit type and member status.

Post-employment benefits are accrued during employment. Therefore, the costs are spread over the period from the date of hire to the date of termination or retirement. For current retirees and terminated vested members, the AAL is equal to the PVB since there is no future service to be rendered. For active members, the AAL is based on the portion of the PVB that is allocated to prior years based on the actuarial cost method. For the EAN method, the actuarial present value of the projected benefits of each individual is allocated as a level percentage of the individual's projected compensation between entry age and assumed exit.

The portion of the PVB that is anticipated to be earned in the year following the valuation date is the Normal Cost (NC). The NC is shown in Table 2 of each agent's section.

Actuarially Determined Contribution

The ADC is made up of two components: Normal Cost (NC) and amortization of the Unfunded Actuarial Accrued Liability (UAAL). The UAAL is the AAL net of assets. For purposes of this valuation, the UAAL is amortized on an open basis over 30 years as a level percentage of payroll. The amortization under this methodology is not sufficient to cover the interest on the UAAL which implies the amount of the UAAL is expected to increase over time. Even if the full ADC is contributed, it would not be sufficient to cover interest and the expected increase in the UAAL. Note this term, the ADC, is a calculated amount, and may or may not reflect the actual employer contributions towards funding the OPEB program benefits.

Table 3 of each agent's section details the ADC results as of July 1, 2021, the beginning of the 2021/2022 fiscal year.

Fiduciary Net Position

Table 4 in each agent's section provides the statement of changes in Fiduciary Net Position (FNP) or assets. OPEB Trust and Agency Fund activity is included.

Analysis of Change

Table 5 in each agent's section illustrates the source of change between the July 1, 2020 and the July 1, 2021 valuation.

Estimated Pay-As-You-Go Costs

Table 6 in each agent's section projects the estimated annual OPEB benefit pay-as-you-go costs, net of expected retiree paid premiums for the next ten years. The total projected pay-as-you-go costs are shown separately for medical, dental/vision, Medicare Part B, and retiree death benefits. The medical and dental/vision retiree contributions are also summarized. Finally, the net County paid benefits are shown. These are the total projected pay-as-you-go costs minus the retiree contributions.

Background on Accounting Requirements

GASB issued Statement No. 74 in June of 2015. This statement replaced GASB Statement No. 43. GASB also issued Statement No. 75 in June of 2015. This statement replaced GASB Statement No. 45. LACERA was required to adopt Statement No. 74 for the fiscal year ended June 30, 2017. For the County, LACERA, Superior Court, and Outside Districts, Statement No. 75 was required to be adopted for the fiscal year ending June 30, 2018. The requirements under GASB 74 and 75 necessitate separate disclosure reports from this funding valuation. Parts of this valuation, including the ADC, census, assumptions, and methods are utilized in the separate GASB 75 disclosure report.

The information in this report was prepared for the purpose of presenting OPEB funding and ACFR information. The actual funding of the OPEB program benefits may differ from the amounts used for accounting disclosure purposes. The investment return for the County, Superior Court and LACERA who are prefunding through the OPEB Trust, is the OPEB Trust expected return of 6.00%. The expected return for the Outside Districts is the investment earnings assumption of the County's general funds expected return of 2.30%.

Section 3: County Liabilities and Costs

The following tables show key results of the July 1, 2021 OPEB funding valuation for the County.

- Table 1 is a summary of the membership and Actuarial Accrued Liability (AAL).
- Table 2 shows the AAL and Normal Cost (NC) by membership type and benefit.
- Table 3 displays the development of the Actuarially Determined Contribution (ADC).
- Table 4 is the Statement of Changes in Fiduciary Net Position (FNP).
- Table 5 shows the gain/loss detail.
- Table 6 has the projected paid benefits by benefit type.

Section 7: Total of All Agents Liabilities and Costs

The following tables show key results of the July 1, 2021 OPEB funding valuation for all the agents combined.

- Table 1 is a summary of the membership and Actuarial Accrued Liability (AAL).
- Table 2 shows the AAL and Normal Cost (NC) by membership type and benefit.
- Table 3 displays the development of the Actuarially Determined Contribution (ADC).
- Table 4 is the Statement of Changes in Fiduciary Net Position (FNP).
- Table 5 shows the gain/loss detail.
- Table 6 has the projected paid benefits by benefit type.

The following agents are included in this section:

Agencies that are prefunding the liability utilize a 6.00% investment earnings assumption, which is based on the projected return on the assets in the OPEB Trust.

- County
- Superior Court
- LACERA

Agencies that are not prefunding the liability utilize a 2.30% investment earnings assumption, which is based on the projected return on County general assets.

- South Coast Air Quality Management District (SCAQMD)
- Los Angeles County Office of Education (LACOE)
- Local Agency Formation Commission (LAFCO)
- Little Lake Cemetery District (LLCD)

The agencies not prefunding the liability represent 0.06% of the total Actuarial Accrued Liability.

Discussion of the Transition from Cost Sharing to Agent

There are two types of plan structures: Cost Sharing and Agent. LACERA began funding and accounting reporting under a Cost Sharing plan in 2006. In the cost sharing structure, there is no attribution of liabilities, costs, and assets to individual employers for funding purposes. This was appropriate while the employers were not prefunding.

An OPEB Trust was established so that the County, Superior Court, and LACERA could prefund the OPEB costs. Separate accounts are maintained for each employer. This OPEB Trust meets the three GASB requirements:

- 1. Contributions are irrevocable
- 2. Assets are dedicated to retiree benefits
- 3. Assets are legally protected from creditors

Each employer may have a different prefunding schedule where employers could prefund different amounts at different times. To ensure assets are designated to each employer's costs and liabilities, the decision was made to change from a cost sharing structure to an agent plan structure. Under this arrangement the assets are partitioned according to each employer's funding actions.

The Transition timeline is as follows where the GASB Disclosure dates are the reporting dates:

LACERA OPEB Report	Last Year with Cost Sharing Structure	First Year with Agent Structure
Funding Valuation	July 1, 2017	July 1, 2018
GASB 74 Disclosure Report GASB 75 Disclosure Report	June 30, 2018 June 30, 2019	N/A June 30, 2020

Discussion of GASB Statements No. 74 and 75

On June 2, 2015, GASB approved Statement Numbers 74 and 75.

GASB Statement Number 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, addresses reporting by OPEB plans that administer benefits on behalf of governments and replaces GASB Statement Number 43.

The effective date for this statement is applicable to LACERA's fiscal year reporting period ending June 30, 2017. Milliman prepared LACERA's first GASB 74 disclosure report issued on September 27, 2017 and was based on the July 1, 2016 OPEB valuation, measurement date of June 30, 2017 and reporting date of June 30, 2017. The second GASB 74 disclosure report was based on the July 1, 2017 OPEB valuation, measurement date of June 30, 2018 and reporting date of June 30, 2018. Due to the change from cost sharing to agent, the GASB 74 report with a reporting date of June 30, 2019 and thereafter no longer includes actuarial information. LACERA has determined an actuarial GASB 74 report under an agent structure is not necessary.

GASB Statement Number 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments and replaces GASB Statement Number 45. Though the effective date is one year later than GASB Statement Number 74, the first GASB 75 disclosure report was based on the July 1, 2016 OPEB valuation with a measurement date of June 30, 2017 and a reporting date of June 30, 2018. This timing pattern is maintained for the GASB 75 disclosure reports. This June 30, 2021 valuation will be the basis for the GASB 75 disclosure report with a measurement date of June 30, 2022 and a reporting date of June 30, 2023.

Some of the highlights of the GASB Statements 74 and 75 are as follows:

- The balance sheet liability is the full Net OPEB Liability (NOL) rather than the Net OPEB Obligation. The NOL is more closely aligned with the UAAL.
- The annual OPEB expense is likely to be more volatile from year to year than the ADC because there will be faster recognition of OPEB expenses.
- The discount rate development is based on a blended rate equivalent of the long-term expected rate of return on assets and a 20-year tax-exempt municipal bond yield or index rate.
- The Entry Age Normal actuarial cost method is required.

Appendix A: Actuarial Procedures and Assumptions

The actuarial procedures and assumptions used in this valuation are described in this section. Where applicable, the same assumptions are used for the LACERA postemployment health and death benefit program as for the LACERA retirement benefits. The assumptions that overlap with the LACERA retirement benefits plan assumptions were reviewed and changed June 30, 2019, as a result of the 2019 triennial Retirement Benefit Investigation of Experience Study, approved by the Board of Investments in January 2020. These assumptions are consistent with the June 30, 2021 retirement funding valuation. The investment earnings assumptions are OPEB specific and were reviewed and changed June 30, 2020 as a result of the 2020 OPEB Experience Study. For agents that are prefunding into LACERA's OPEB Trust, the expected return of the assets of the OPEB Trust is based on the asset allocation approved in the December 2017 Board of Investments meeting, which is a different asset allocation from the one used for the retirement benefits plan. LACERA conducts an asset allocation study every three years and a new one was completed in 2021, but has not yet been implemented. The investment earnings assumption for agents that are not prefunding into LACERA's OPEB Trust is based on the expected return from the County's general assets in the 2020 OPEB Experience Study. The OPEB specific assumptions other than premiums, claim costs, aging, and trend were changed as a result of the 2020 OPEB Investigation of Experience Study approved in the March 2021 Board of Retirement meeting. The premiums, claim costs, aging, and trend updated with the 2022-2023 annual medical and dental plan rate renewals are updated in this Appendix A.

The actuarial assumptions used in both the retirement benefits plan and OPEB program actuarial valuation are intended to estimate the future experience of the members eligible for benefit payments and the projected benefit flow and anticipated investment earnings. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the benefits.

Table A-1 summarizes the assumptions. The general wage increase, inflation, and retirement specific demographic assumptions were developed in the 2019 retirement benefits experience study. Nearly all of the OPEB specific demographic and investment earnings assumptions were developed in the 2020 OPEB experience study report. The claim costs and health cost trend assumptions with the 2022-2023 annual medical and dental plan rate renewals were updated in the July 1, 2021 OPEB funding valuation.

Retirement Benefit Assumptions

Tables A-2 and A-3 show how members are expected to leave retired status due to death. These were developed from the experience as measured by the 2019 Retirement Benefit Investigation of Experience Study.

Table A-4 presents the probability of a refund of retirement benefit contributions upon termination of employment while vested. These were developed from the experience as measured by the 2019 Retirement Benefit Investigation of Experience Study.

Table A-5 presents the general wage increase of 3.25% per annum. This was developed from the experience as measured by the 2019 Retirement Benefit Investigation of Experience Study.

Tables A-6 to A-13 present the rates of separation of active service. These were developed from the experience as measured by the 2019 Retirement Benefit Investigation of Experience Study. The rates are the probabilities a member will leave active employment for various reasons.

OPEB Assumptions

Tables A-14 to A-19 present enrollment assumptions. These were developed from the 2020 OPEB Investigation of Experience Study to estimate health eligibility and enrollment.

Tables A-20 to A-21 present premium and claim cost assumptions developed from the OPEB program's July 1, 2021 premium and claim information.

Table A-22 presents the health cost trend rates for the July 1, 2021 OPEB valuation. These rates reflect the final July 1, 2022 annual medical and dental plan rate renewals.

Table A-23 presents the assumed retirement rates for vested terminated members developed from the 2020 OPEB Investigation of Experience study.

Actuarial Cost Method

Effective with the July 1, 2018 OPEB funding valuation, the Entry Age Normal (EAN) actuarial cost method is being used. Under the principles of this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percentage of the individual's projected compensation between entry age and assumed exit (until maximum retirement age). For members who transferred between plans, entry age is based on original entry into the system.

The portion of this actuarial present value allocated to a valuation year is called the Normal Cost (NC). The portion of this actuarial present value not provided for at a valuation date by the sum of (a) the actuarial value of the assets, and (b) the actuarial present value of future Normal Costs is called the Unfunded Actuarial Accrued Liability (UAAL). The UAAL is amortized as a level percentage of the projected salaries of the active members, both present and future, covered by the LACERA retirement benefits plan over a 30-year period from the valuation date; this is commonly referred to as a "rolling 30-year amortization method". This method does not cover interest on the UAAL. We will consider changing the amortization method in the 2023 OPEB Investigation of Experience.

Records and Data

The data used in this valuation consist of medical and dental/vision premiums, financial information, and the age, service, and salary records for active and inactive members and their survivors. All of the information was supplied by LACERA, Segal, and Meketa Investment Group and was accepted for valuation purposes without audit.

Growth in Membership

For benefit determination purposes, no growth in the membership of LACERA is assumed. For funding purposes, if amortization is required, the total payroll of covered members is assumed to grow due to the combined effects of future wage increases of current active members and the replacement of the current active members by new employees. No growth in the total number of active members is assumed.

Valuation of Assets

The asset valuation method is market value.

Investment Earnings and Expenses

The investment earnings assumption is used to discount all the projected benefits that are expected to be received in the future for all current members. This OPEB program utilizes two investment earnings assumptions depending on whether the agent is prefunding into the OPEB Trust or not. For this funding valuation, we have chosen to utilize the same criteria for a qualified prefunding trust as GASB 74 and 75. The criteria include: (1) irrevocable trust contributions, (2) assets are dedicated to providing OPEB to plan members, and (3) assets are legally protected from creditors of employers and plan members.

The investment earnings assumption for agents that are prefunding through the OPEB Trust is the OPEB Trust expected return of 6.00%. The investment earnings assumption for agents that are not prefunding through the OPEB Trust is the County's general funds expected return of 2.30%. These rates were adopted from the 2020 OPEB Investigation of Experience Study.

The change from cost sharing to agent began with the July 1, 2018 OPEB funding valuation. The investment earnings assumption approach for this funding valuation is intended to reflect the earnings associated with each agent. The separate GASB 75 disclosure report, which is different from this funding valuation, follows a prescribed discount rate for accounting disclosures.

Health Cost Trend

The health cost trend is the projected increase in per person health costs from one year to the next. The trend assumptions vary by benefit type and by future fiscal year as illustrated in Table A-22. The first-year trends reflect the final July 1, 2022 annual medical and dental plan rate renewals in the July 1, 2021 OPEB Valuation. See the discussion in Table A-22 for more details about the trend assumptions. These trend rates were adopted July 1, 2021.

Future Salaries

The 3.25% per annum rate of increase in the general wage level of membership is in Table A-5. This rate was adopted June 30, 2019.

Retirement

Members in General Plans A-D may retire at age 50 with 10 years of service, or any age with 30 years of service, or age 70 regardless of the number of years of service. General Plan G members are eligible to retire at age 52 with 5 years of service, or age 70 regardless of the number of years of service. Non-contributory Plan E members may retire at age 55 with 10 years of service. Members of Safety Plans A and B may retire at age 50 with 10 years of service, or any age with 20 years of service. Safety Plan C members are eligible to retire at age 50 with 5 years of County service.

The retirement rates for active members vary by age and are shown by plan in Tables A-6 through A-13.

All general members who attain or who have attained age 75 in active service and all safety members who have attained age 65 in active service are assumed to retire immediately (except for Safety Plan C members who have not yet attained 5 years of service). All deferred vested members are assumed to retire according to Table A-23.

The assumptions regarding termination of employment, early retirement, and unreduced service retirement are treated as a single set of decrements in regard to a particular member. For example, a general member hired at age 30 has a probability to withdraw from LACERA due to death, disability, or other termination of employment until age 50. After age 50, the member could still withdraw due to death,

disability, or retirement. Thus, in no year during the member's projected employment would they be eligible for both a probability of other termination of employment and a probability of retirement.

The active members' retirement probabilities were adopted June 30, 2019. The terminated vested member's retirement probabilities were adopted July 1, 2020, for purposes of the OPEB program valuation.

Disability

The rates of disability used in the valuation are illustrated in Tables A-6 through A-13. These rates were adopted June 30, 2019.

Postretirement Mortality - Other Than Disabled Members

The same postretirement mortality rates are used in the valuation for active members, members retired for service, and beneficiaries. These rates are illustrated in Table A-2. Current beneficiary mortality is assumed to be the same assumption as healthy members of the same gender. Future beneficiaries are assumed to be of the opposite gender and have the same mortality as General members. Note that these assumptions directly reflect the expected future mortality improvement. These rates were adopted June 30, 2019.

Males General members: PubG-2010 Healthy Retiree Mortality Table for Males, with MP-2014

Ultimate Projection Scale.

Safety members: PubS-2010 Healthy Retiree Mortality Table for Males multiplied by 85%,

with MP- 2014 Ultimate Projection Scale.

Females General members: PubG-2010 Healthy Retiree Mortality Table for Females multiplied by

110%, with MP-2014 Ultimate Projection Scale.

Safety members: PubS-2010 Healthy Retiree Mortality Table for Females, with MP-2014

Ultimate Projection Scale.

Postretirement Mortality – Disabled Members

For disabled members, the mortality rates used in the valuation rates are illustrated in Table A-3. Note that these assumptions directly reflect the expected future mortality improvement. These rates were adopted June 30, 2019.

Males General members: Average of PubG-2010 Healthy Retiree Mortality Table for Males and

PubG-2010 Disabled Retiree Mortality Table for Males, both projected with MP-2014

Ultimate Projection Scale.

Safety members: PubS-2010 Healthy Retiree Mortality Table for Males, with MP-2014

Ultimate Projection Scale.

Females General members: Average of PubG-2010 Healthy Retiree Mortality Table for Females and

PubG-2010 Disabled Retiree Mortality Table for Females, both projected with MP-2014

Ultimate Projection Scale.

Safety members: PubS-2010 Healthy Retiree Mortality Table for Females, with MP-2014

Ultimate Projection Scale.

Mortality While in Active Status

For active members, the mortality rates used in the valuation are illustrated in Tables A-6 through A-13. These rates were adopted June 30, 2019.

Class	Gender	Proposed Table
General	Male	PubG-2010 (120%) Employee Male ⁽¹⁾
General	Female	PubG-2010 (130%) Employee Female ⁽¹⁾
Safety	Male	PubS-2010 (100%) Employee Male ⁽¹⁾
Safety	Female	PubS-2010 (100%) Employee Female ⁽¹⁾

^{1.} Projection using the MP-2014 Ultimate projection scale.

Note that Safety members have an additional service-connected mortality probability of 0.01% per year.

Other Employment Terminations

Tables A-6 to A-13 show, for all ages, the probabilities assumed in this valuation for future termination from active service other than for death, disability, or retirement. These probabilities do not apply to members eligible for service retirement. These probabilities were adopted June 30, 2019.

Terminating employees may withdraw their contributions immediately upon termination of employment and forfeit the right to further retirement, medical, dental/vision, and death benefits, or they may leave their contributions with LACERA. Former contributing members whose contributions are on deposit may later elect to receive a refund, may return to work, or may remain inactive until becoming eligible to receive a retirement benefit under either LACERA or a reciprocal retirement plan. All terminating members who are not eligible for vested benefits are assumed to withdraw their contributions immediately. All terminating members are assumed not to be rehired in the future.

Table A-4 gives the assumed probabilities that vested members will withdraw their contributions and elect a refund immediately upon termination and the probability that remaining members will elect a deferred retirement allowance. All non-vested members are assumed to elect a refund and withdraw their contributions. These rates in Table A-4 were adopted June 30, 2019.

Future Transfers

Though a few active members may change pension plans, this valuation assumes the active members remain in the plan they are enrolled in at the time of the valuation. Specifically, we assume there will be no future transfers between retirement benefit plans.

Retiree Medical and Dental/Vision Eligibility and Enrollment Assumptions

Any retired or vested terminated members who have not yet elected a refund of their member contributions and will receive a pension benefit other than a refund are eligible for retiree medical and dental/vision enrollment.

The 2020 OPEB Investigation of Experience report was used to set the following assumptions:

Age difference for future retirees and spouses	Table A-1
Probability of initial medical enrollment upon retirement	Table A-14
Probability of medical plan and coverage tier selection upon retirement for Tier 1	Table A-15A
Probability of medical plan and coverage tier selection upon retirement for Tier 2	Table A-15B

G. Mortality for Beneficiaries⁽¹⁾

Table A-2

Basis – Current beneficiary mortality is assumed to be the same as for healthy members of the same gender. Future beneficiaries are assumed to be of the opposite gender and have the same mortality as General members.

1. All mortality probabilities are projected using the MP-2014 Ultimate projection scale.

110	0.210%
115	0.000%

1. Mortality probabilities are those applicable for the fiscal year beginning in 2010. Annual projected improvements are assumed in the following years under the schedule shown. For example, the annual mortality probability for an 85-year old Safety male in fiscal year beginning in 2021 is 6.9521% calculated as follows:

Age 85 probability in 2021 = Age 85 probability in 2010 with 11 years improvement = 7.7648% x (100.0% - 1.0%) ^ 11 = 6.9521%

Table A-3

Table A-5 Annual Increase in Salary

Payroll is assumed to increase with the general wage increase of 3.25% per annum in addition to individual annual increases from promotion and longevity. The promotion and longevity increases shown in the table below are combined with the general wage increase on a compound basis and are used for the Entry Age Normal cost method. General wage increases and individual salary increases due to promotion and longevity do not affect the amount of the OPEB program's benefits.

Appendix A: Probabilities of Separation from Active Service Tables A-6 to A-13

A schedule of the probabilities of termination of employment due to the following causes can be found on the following pages:

Service Retirement: Member retires after meeting age and service requirements for reasons other

than disability.

Other Terminations: Member terminates and elects a refund of member contributions or a deferred

vested retirement benefit.

Service Disability: Member receives disability retirement; disability is service related.

Ordinary Disability: Member receives disability retirement; disability is not service related.

Service Death: Member dies before retirement; death is service related.

Ordinary Death: Member dies before retirement; death is not service related.

Each of these represents the probability that a member will separate from service at each age due to the particular cause. For example, a probability of 0.0300 for a member's service retirement at age 50 means we assume that 30 out of 1,000 members who are age 50 will retire at that age.

Each table represents the detailed rates needed for each LACERA plan by gender:

Table A-6: General Plans A, B, & C Males A-7: General Plans A, B, & C Females A-8: General Plans D & G Males A-9: General Plans D & G Females A-13: Safety Plans A, B, & C Females A-13: Safety Plans A, B, & C Females

	Anthem Blue Cross III	1.6%	1.0%
	UnitedHealthcare Medicare Advantage	0.2%	0.0%
	Senior Advantage	1.5%	0.0%
Firefighters Local 1014	Firefighters Local 1014	100.0%	100.0%

We assume that 100% of the retirees are eligible for Medicare with Part B Premium Reimbursement for the plans listed below. We assume these Post Medicare Only Plans are for enrollees who are entitled for Medicare Parts A and B:

- Anthem Blue Cross III
- Cigna Medicare Select Plus Rx (AZ)
- Firefighters Local 1014 Post Medicare Plan
- Kaiser Senior Advantage
- SCAN
- UnitedHealthcare Medicare Advantage

We assume all other plans' retirees do not receive Part B Premium Reimbursement.

The Part B reimbursement for Tier 1 is for retiree and any spouse or child(ren), while the Part B reimbursement for Tier 2 is only for retirees and surviving spouses. Tier 2 retirees are required to enroll in Medicare when eligible.

Effective January 1, 2007, Medicare Part B premiums vary depending on income status. The County places a cap on the per member monthly Part B reimbursement amount at the standard amount (e.g., \$170.10 for calendar year 2022).

For purposes of this valuation, we assume the average Medicare Part B premium reimbursement from July 1, 2021 through July 1, 2022 is \$154.00 per member per month. This is based on our average of 2021 calendar year Medicare Part B premium rates provided in the census from LACERA of \$137.90 per member per month and the 2022 calendar year Medicare Part B standard premium rate of \$170.10.

Table A-17 Survivor and New Dependent Enrollment

The valuation methods and assumptions are adjusted with the following considerations from LACERA discussions:

Scenario I

If a dependent or spouse dies, the retiree may enroll a new spouse/domestic partner and/or a new dependent.

- We assume 1.0% will enroll a new spouse/domestic partner.
- We assume 2.5% of the retirees will enroll a new dependent.

Scenario II

If a retiree who has a retirement plan option which qualifies as eligible for continuing retirement benefits to the survivor dies and the spouse has retiree medical, Part B, or dental/vision coverage, the existing spouse or dependent may continue to be enrolled and may also enroll a new spouse/domestic partner and/or a new dependent.

- We assume 90% of the retirees with spouses have a spouse continuance option.
- We assume 2.2% of the surviving spouse/domestic partners with a continuance option will enroll a new spouse.
- Therefore, we assume 2.0% (or 90% of the 2.2%) of the surviving spouses' new spouses will enroll and receive the County subsidy.
- We assume 2.5% of the surviving spouse/domestic partners will enroll a new dependent.

Scenario III

If a retiree who has a retirement plan option which qualifies as eligible for continuing retirement benefits to the survivor dies and the spouse does NOT have retiree medical coverage, we assume no additional spouse/domestic partner or dependent will be enrolled.

Table A-20 Premium Information

The following premium information is for retirees living in California who have less than 10 years of service and must pay the full amount. Members who have more than 10 years of service receive a subsidy from the County. Details can be found in this table below. The premium rates in Table A-20 include the carriers' administration fees and LACERA's per contract monthly administration fee. The per contract monthly administration fee was \$8.00 effective July 1, 2021 and \$10.00 effective July 1, 2022 and is included in the premium rates.

COUNTY CONTRIBUTIONS TOWARDS RETIREE HEALTH BENEFITS

Medical

Tier 1 is for employees who are hired before July 1, 2014 and are eligible for LACERA membership. If a retiree has 10 years of retirement service credit, the County contributes 40% of the health care plan premium or 40% of the benchmark plan rate, whichever is less. For each year of retirement service credit beyond 10 years, the County contributes an additional 4% per year, up to a maximum of 100% for a member with 25 years of service credit.

Tier 2 is for employees who are hired after June 30, 2014 and are eligible for LACERA membership. The Tier 2 subsidy is the same as Tier 1 except that the benchmark plan is different. The table below shows the benchmark plans for Tier 1 and Tier 2.

<u>Tier</u>	Pre / Post <u>Medicare</u>	Benchmark Plan	Benchmark Amount
1	Pre	Anthem Blue Cross I & II	Same tier that member selects
1	Post	Anthem Blue Cross I & II	Same tier that member selects
2	Pre	Anthem Blue Cross I & II	Retiree-only tier
2	Post	Anthem Blue Cross III	Retiree-only tier

If a Tier 2 retiree selects a family tier for a plan where the premium for the retiree-only tier is less than the Tier 2 benchmark, there is a spouse subsidy equal to the Tier 2 benchmark less the premium for the retiree-only tier. The Tier 2 non Local 1014 spouse subsidy varies depending on the plan selected and the retiree's years of service, so we developed weighted average factors of the County's contribution for the spouse's portion. On average, we assume that if the retiree has 10 years of service, the County will contribute 8% of the spouse's portion. This assumption grades linearly to 20% of the spouse's portion for a retiree with 25+ years of service.

The pre 65 and post 65 retirees of Local 1014 are on the same plan and pay the same rates. The pre 65 premium for the retiree-only tier is approximately equal to the Tier 2 benchmark so we valued no spouse subsidy. Since the post 65 premium for the retiree-only tier is greater than the Tier 2 benchmark, we assume the County contribution is 15% with 10 years of service grading linearly to 40% with 25+ years of service. Post 65 spouses are assumed to receive no subsidy.

The County contribution can never exceed the premium of the benchmark plan; this means that if the premium for the chosen plan and coverage option exceeds the benchmark premium, the retiree is required to pay the difference, even if the retiree has 25 years of service. We adjust the retiree's contributions by the difference between the premium of the chosen deduction code and the benchmark plan. Likewise, if the retiree has 25 years of service and the plan premium is less than the benchmark rate, the County contributes 100% of the plan premium only, not the benchmark plan rate. Reciprocal service is not included in contribution calculations.

Dental/Vision

The contribution percentages follow the same contribution proportions based on years of service (excluding reciprocal service) as the medical plans. The Tier 1 benchmark is the indemnity plan premium for the tier that the member selects. The Tier 2 benchmark is the indemnity plan premium for the retiree-only tier.

Service-Connected Disability

Any retiree with a service-connected disability retirement with less than 13 years of service will receive a different County contribution for both medical and dental/vision plans. The County contributes 50% of the lesser of the benchmark plan rate or the premium of the plan the retiree is enrolled in. If a retiree with service-connected disability retirement has 13 or more years of service, the County subsidy is the same as a retiree with service retirement. Reciprocal service is not included in contribution calculations.

FIREFIGHTERS LOCAL 1014 CONTRIBUTIONS TOWARDS RETIREE HEALTH BENEFITS

Medical, Dental/Vision, and Service-Connected Disability

Contributions are the same as for the County employees.

Table A-21 Claim Cost Analysis

All of the plans' premium rates have been determined based on retiree only information. Active premium rates are established independently. Therefore, no implicit subsidy exists between active and retiree rates. However, some plans pooled the Medicare enrolled and non-Medicare enrolled retirees to determine the rates. The following plans did not pool Medicare and non-Medicare retirees (or have an insignificant Medicare enrollment), so we can assume the premium rates are representative of the average claim costs used to develop the age and gender adjusted claim costs:

- Anthem Blue Cross I and II (Combined)
- Anthem Blue Cross III
- Anthem Blue Cross Prudent Buyer
- Cigna Network Model Plan
- Cigna Medicare Select Plus Rx (AZ)
- UnitedHealthcare
- UnitedHealthcare Medicare Advantage
- SCAN Health Plan
- Kaiser and Kaiser Interregional
 - o Basic
 - Senior Advantage
 - Medicare Cost Supplement
 - Excess I
 - Excess II
 - Excess III
- Cigna Indemnity Dental/Vision
- Cigna HMO Dental/Vision

The Firefighters Local 1014 Plan pooled Medicare and non-Medicare retirees to determine premium rates. Therefore, we adjusted the premium rates to compensate for the coordination with Medicare in making our claim cost assumption.

For current active members projected to retire in the future, we used the enrollment assumptions in Table A-15A (Tier 1), Table A-15B (Tier 2), and Table A-16 (pre 65 to post 65 election) to develop weighted average claim costs as of July 1, 2021. The monthly weighted average claim costs used for future retirees and dependents are shown in the following tables.

The medical claim costs for pre 65 retirees are different than for post 65 retirees due to different plan selection assumptions.

Current vested terminated members post 65 claim costs are based on their earliest retirement eligibility age.

In the following tables, when shown, child costs are at age 65. The costs for children are assumed to be 25% of the age 65 child costs for males and 21% of the age 65 child costs for females.

For current retired members, spouses, and dependents, the claim costs are based on the actual premiums by deduction code, adjusted for age and gender. The tables that follow show the age 65 adjusted monthly claim costs. Adjustments by age and gender are based on the same methodology used in the tables above.

Table A-22 Health Cost Trend Assumptions

The health cost trend assumptions are shown in the following table. These trends have changed from the July 1, 2020 valuation, due to updates in the trend models that we use. The medical trend model is based on the Society of Actuaries' (SOA) published report on long-term medical trend. That report includes detailed research performed by a committee of economists and actuaries that uses the "Getzen Model," named after the professor who developed the model, updated in November of 2021. The following website provides more information: https://www.soa.org/resources/research-reports/2021/2021-getzen-model/. We believe that the research and the model are fundamentally and technically sound and advance the body of knowledge available to actuaries to accurately project long-term medical trends. Milliman uses this model as the foundation for the trend that it recommends to our clients for OPEB valuations.

The first-year trend rates for LACERA non-Local 1014 firefighters' medical and dental/vision plans have been adjusted to reflect the final July 1, 2022 annual medical and dental plan rate renewals. The remaining short-term trends are based on Milliman's *Health Cost Guidelines*™.

The trend assumption for Medicare Part B premiums was updated based on the Medicare Part B monthly 2023 premium estimate of \$170.10 and the long-term projected Medicare Part B costs. These items are from the 2022 Medicare Trustees Report from the Centers for Medicare and Medicaid Service (CMS) dated June 2, 2022. The dental trend assumption was updated based on the same methodology we used in our 2020 OPEB Investigation of Experience Study.

The following table presents the trend assumptions. The weighted average trends are based on the expected payouts from each of the coverages (medical under 65, medical over 65, Part B, and Dental) for the July 1, 2021 valuation.

After fiscal year ending June 30, 2032, selected years are shown in the table. The trend rates for the years not shown generally grade ratably into the next value shown in the table. The medical trend for both under and over 65 remains at 4.20% beginning with the medical trend from fiscal year ending June 30, 2073 to fiscal year ending June 30, 2074.

Given the substantial uncertainty regarding the impact of COVID-19 on plan costs, including whether the pandemic will increase or decrease costs during the term of our projections, we have chosen not to make an adjustment in the expected plan costs. It is possible that the COVID-19 pandemic could have a material impact on the projected costs.

75	100.00%	100.00%	100.00%
75 or older	100.00%	100.00%	100.00%

These factors were used for current vested terminated members. For retirement of future vested terminated members (i.e., members that are currently active and may become vested terminated in the future), these factors were simplified into five-year factors for ease of application in the valuation system. Spouses of future vested terminated members were assumed to commence benefits at age 60.

Appendix B: Summary of Program Provisions

The following description of retiree healthcare and death benefits is intended to be only a brief summary. For details, reference should be made to the County and LACERA agreements, and employee booklets.

All actuarial calculations are based on our understanding of the statutes governing LACERA as contained in the County Employees Retirement Law (CERL) of 1937 and the California Public Employees' Pension Reform Act of 2013 (PEPRA), with provisions adopted by the LACERA Board of Retirement, effective through July 1, 2013. The benefit and contribution provisions of this law are summarized briefly below. This summary does not attempt to cover all the detailed provisions of the law.

ELIGIBILITY FOR RETIREE HEALTHCARE AND DEATH BENEFITS

Employees are eligible for the LACERA administered Retiree Healthcare Benefits Program if they are a member of LACERA and retire from the County of Los Angeles or Participating agencies of the County of Los Angeles. Healthcare benefits are also offered to qualifying survivors of deceased active employees who are eligible to retire at the time of death and to qualifying survivors of retired members. Since eligibility for retiree qualifying healthcare and death benefits is dependent on eligibility to receive a retirement benefit, the eligibility and other aspects of the retirement benefits are applicable for retirement healthcare and death benefits. Participation in the Retiree Healthcare Benefits Program is for life in most instances.

New retirees have 60 days from the date of retirement or 60 days from the date the retiree's name appears on the Board of Retirement agenda, to sign up for medical and dental/vision coverage. If a retiree applies for coverage after the 60 day window, there is a waiting period of 6 months for medical enrollment and 1 year for dental/vision enrollment.

If a retiree's spouse or domestic partner is also a LACERA retiree there cannot be dual coverage. If the spouse or domestic partner is covering the retiree under medical or dental/vision, the retiree may not also enroll as a retiree in medical or dental/vision.

LACERA MEMBERSHIP

Permanent employees of Los Angeles County (County) and participating districts who work ¾ time or more are eligible for membership in LACERA.

Employees eligible for safety membership (sheriff, fire, and other personnel as defined by law) become safety members on the first day of the month after date of hire. Employees who become members on or after January 1, 2013, will enter into Safety Plan C.

All other employees become general members on the first day of the month after date of hire, or the first day of the month after they make an election of either Plan D or Plan E, depending on the law in effect at that time. Employees who become members on or after January 1, 2013 will enter into General Plan G.

Elective officers become members on the first day of the month after filing a declaration with the Board of Retirement.

TIER 2 EMPLOYEES

New County employees hired after June 30, 2014 who are eligible for LACERA membership may enroll in the Los Angeles County Retiree Healthcare Benefits Program – Tier 2. The County retiree medical and dental/vision subsidy applies to retiree-only coverage for Tier 2 employees, and new benchmark plans also apply. Additional provisions and details can be found at the end of this Appendix B and on the following link of the LACERA website:

https://www.lacera.com/sites/default/files/assets/documents/rhc/exploring your healthcare benefits 09 15 21.pdf

New claims costs and new probabilities of medical plan and tier selection upon initial enrollment were developed for Tier 2 employees. These can be found in Appendix A.

Tier 2 provisions apply to employees hired since June 30, 2014. Most active, vested terminated and retiree members are currently in Tier 1. In the future, the impact of the Tier 2 benefit provisions and assumptions will grow as the Tier 2 population increases and the Tier 1 population decreases.

RETIREMENT PLANS

The County has established nine defined benefit plans. The following outlines the dates these plans were available, based on a member's date of entry into LACERA:

Safety Member Plans:

Plan A: Inception to August 1977

Plan B: September 1977 through December 2012

Plan C: January 2013 to present

General Member Plans:

Plan A: Inception through August 1977

Plan B: September 1977 through September 1978

Plan C: October 1978 through May 1979 Plan D: June 1979 through December 2012

Plan E: January 1982 through December 2012

Plan G: January 2013 to present

NOTE: After review of a new member's account, a member with prior membership or reciprocity may be enrolled into one of the pre-PEPRA plans, if they meet eligibility requirements.

SERVICE RETIREMENT ELIGIBILITY

Plans A-D: General Members:

Age 50 with 10 years of County service; Any age with 30 years of service; or

Age 70 regardless of service.

Non-Contributory

Plan E: Age 55 with 10 years of service.

Plan G: Age 52 with 5 years of service, or age 70 regardless of service.

Plans A-B: Safety Members:

Age 50 with 10 years of County service;

Any age with 20 years of service.

Plan C: Safety Members:

Age 50 with 5 years of service.

VESTING REQUIREMENT

Plans A-D, G: 5 years of County and reciprocal service. Member contributions must be

left on deposit.

Plan E: 10 years of County and reciprocal service.

SERVICE-CONNECTED DISABILITY RETIREMENT ELIGIBILITY

Plans A-D, G: Any age or years of service; disability must result from

occupational injury or disease, and member must be permanently incapacitated for the performance of duty.

Plan E: Not available under Plan E.

NONSERVICE-CONNECTED DISABILITY RETIREMENT ELIGIBILITY

Plans A-D, G: Any age with 5 years of service and permanently

incapacitated for the performance of duty.

Plan E: Not available under Plan E.

SERVICE-CONNECTED PRE-RETIREMENT DEATH ELIGIBILITY

Plans A-D, G: Active members who die in service as a result of injury or

disease arising out of and in the course of employment.

Plan E: Not available under Plan E.

NONSERVICE-CONNECTED PRE-RETIREMENT DEATH ELIGIBILITY

Plans A-D, G: Active members who die while in service or while physically or

mentally incapacitated for the performance of duty.

Plan E: Not available under Plan E.

ELIGIBLE SURVIVING DEPENDENTS

In order for a survivor of a LACERA active member to receive healthcare benefits, the LACERA active member has to be eligible for retirement at date of death. In order for a survivor of a retired LACERA member to be eligible to receive healthcare benefits, the retired member needed to have had a retirement plan option which qualified as eligible for continuing retirement benefits to the survivor. If one of these requirements is met, the following survivors are eligible for healthcare benefits:

- An eligible surviving spouse or surviving domestic partner, who is eligible to continue to receive retirement benefits and to whom the member was married or registered as a domestic partner for at least one year prior to member's retirement date. If the member was granted a service-connected disability, the one-year rule does not apply. However, the date of marriage or domestic partner registration must precede the date of retirement.
- Surviving unmarried natural children, legally adopted children or stepchildren, up to age 26, if there is also a surviving spouse/eligible domestic partner.
- Surviving unmarried natural children, legally adopted children, or stepchildren, up to age 18 or if a full time student, up to age 22, and receiving retirement pension benefits, without a surviving spouse/domestic partner.
- An eligible surviving spouse or surviving domestic partner who is receiving retiree healthcare, may enroll a new spouse or domestic partner and/or new unmarried natural children, legally adopted children, or stepchildren who are eligible up to age 26.

COUNTY CONTRIBUTIONS TOWARDS RETIREE HEALTHCARE BENEFITS

Medical

Tier 1 is for employees who are hired before July 1, 2014 and are eligible for LACERA membership. If a retiree has 10 years of retirement service credit, the County contributes 40% of the healthcare plan premium or 40% of the benchmark plan rate, whichever is less. For each year of retirement service credit beyond 10 years, the County contributes an additional 4% per year, up to a maximum of 100% for a member with 25 years of service credit.

Tier 2 is for employees who are hired after June 30, 2014 and are eligible for LACERA membership. The Tier 2 subsidy is the same as Tier 1 except that the benchmark plan is different. The table below shows the benchmark plans for Tier 1 and Tier 2.

	Pre / Post		
<u>Tier</u>	<u>Medicare</u>	Benchmark Plan	Benchmark Amount
1	Pre	Anthem Blue Cross I & II	Same tier that member selects
1	Post	Anthem Blue Cross I & II	Same tier that member selects
2	Pre	Anthem Blue Cross I & II	Retiree-only tier
2	Post	Anthem Blue Cross III	Retiree-only tier

If a Tier 2 retiree selects a family tier for a plan where the premium for the retiree-only tier is less than the Tier 2 benchmark, there is a spouse subsidy equal to the Tier 2 benchmark less the premium for the retiree-only tier. If the Tier 2 benchmark is less than the premium for the retiree-only tier, the retiree subsidy would be lower and there would be no spouse subsidy.

The County contribution can never exceed the premium of the benchmark plan; this means that if the premium for the chosen plan and coverage option exceeds the benchmark premium, the retiree is required to pay the difference, even if the retiree has 25 years of service. Likewise, if the retiree has 25 years of service and the plan premium is less than the benchmark rate, the County contributes 100% of the plan premium only, not the benchmark plan rate. Reciprocal service is not included in contribution calculations.

Dental / Vision

The contribution percentages follow the same contribution proportions based on years of service (excluding reciprocal service) as the medical plans. The Tier 1 benchmark is the indemnity plan premium for the tier that the member selects. The Tier 2 benchmark is the indemnity plan premium for the retiree-only tier.

Disability

Any retiree with a service connected disability retirement with less than 13 years of service will receive a different County contribution for both medical and dental / vision plans. The County contributes 50% of the lesser of the benchmark plan rate or the premium of the plan the retiree is enrolled in. If a retiree with service connected disability retirement has 13 or more years of service, the County subsidy is the same as a non-disabled retiree. Reciprocal service is not included in contribution calculations.

FIREFIGHTERS LOCAL 1014 CONTRIBUTIONS TOWARDS RETIREE HEALTHCARE BENEFITS Medical, Dental / Vision, and Disability

Contributions are the same as for the County employees.

DEATH/BURIAL BENEFIT

There is a one-time lump sum \$5,000 death benefit payable to the designated beneficiary upon the death of retirees. Actives and Vested Terminated Inactives are eligible for this benefit once they retire. Spouses and Dependents are not eligible for this death benefit upon their death. This benefit does not go through the 401(h) or any other funding vehicle; rather, is paid by LACERA and billed directly to the County on a monthly basis.

Appendix C: Valuation Data and Schedules

Data on LACERA's retirement benefit program membership as of June 30, 2021 was supplied to us by LACERA's Systems Division staff. Active and vested terminated data is used from the 2021 retirement benefits program valuation. Data for retired members, survivors, and dependents was provided separately for this OPEB valuation. On the following tables, we present a summary of LACERA membership at June 30, 2021 for active, vested terminated, and retired members.

Exhibit C-1:	Summary of Active Members
Exhibit C-2:	Summary of Vested Terminated Members
Exhibit C-3:	Summary of Retired Members, Spouses, and Dependents
Exhibit C-4:	Age and Service Distribution of Active Members
Exhibit C-5:	Age and Service Distribution of Vested Terminated Members
Exhibit C-6:	Age and Service Distributions of Retired Members, Spouses, and Dependents in Medical Plans
Exhibit C-7:	Age and Service Distributions of Retired Members, Spouses, and Dependents in Dental/Vision Plans
Exhibit C-8:	Medical and Dental/Vision Plan Distributions of Retired Members, Survivors, Spouses, and Dependents Pre and Post Age 65 for Tier 1
Exhibit C-9:	Medical and Dental/Vision Plan Distributions of Retired Members, Survivors, Spouses, and Dependents Pre and Post Age 65 for Tier 2
Exhibit C-10:	Treatment of Incomplete Data

Note that Exhibits C-1 through C-7 were prepared using an "age nearest birthday" basis for calculating ages as used by our valuation system. Exhibit C-8 and C-9 were prepared using an "attained age" basis to reflect when someone becomes 65.

Exhibit C-10: Treatment of Incomplete Data

ID	Size	Situation	Assumption and Resolution
1	505 medical N/A dental	There were no children listed in Retiree and Family or Retiree and Children deduction codes.	To be consistent with the tier, children were added. Children were designated as 20 years old since the average age of LACERA children under 26 is 20; half were listed as male and half as female. Children were not added for Kaiser plans, based on previous discussions with LACERA.
2	531 medical 313 dental	There was no spouse listed in Retiree and Spouse, Retiree & Family, or Retiree +1 deduction codes.	To be consistent with the tier, spouses were added. Even in the Retiree+1 case, a spouse was added rather than a child as this is a more conservative addition. Spouses were given a gender opposite of the retiree and date of birth was determined according to the marriage age difference assumption.
3	186 medical 187 dental 63 death benefit only	Members were deceased before 7/1/2021.	Removed records from data.
4	1 medical N/A dental	Record had unusual date of birth.	Used average of all dates of births.
5	12 medical 18 dental 13 death benefit only	Records had blank gender.	We designated half the members as male and half as female based on proportions of remaining population.

Appendix D: Glossary

The following definitions are excerpts from other actuarial organizations in the United States. In some cases, the definitions have been modified for specific applicability to LACERA. Defined terms are capitalized throughout this Appendix.

Actuarial Accrued Liability

That portion, as determined by a particular Actuarial Cost Method, of the Actuarial Present Value of postemployment plan benefits and expenses which is not provided for by future Normal Costs.

Actuarial Assumptions

Assumptions as to the occurrence of future events affecting OPEB costs, such as: mortality, termination of employment, disability, retirement; changes in medical costs; and other relevant items.

Actuarial Cost Method

A procedure for determining the Actuarial Present Value of OPEB program benefits and expenses and for developing an actuarially equivalent allocation of such value to time periods, usually in the form of a Normal Cost and an Actuarial Accrued Liability.

Actuarial Gain (Loss)

A measure of the difference between actual experience and that expected based on a set of Actuarial Assumptions during the period between two Actuarial Valuation dates, as determined in accordance with a particular Actuarial Cost Method.

Actuarial Present Value

The value of an amount or series of amounts payable or receivable at various times, determined as of a given date by the application of a particular set of Actuarial Assumptions.

Actuarial Valuation

The determination, as of a valuation date, of the Normal Cost, Actuarial Accrued Liability, Actuarial Value of Assets, and related Actuarial Present Values for an OPEB plan.

Actuarial Value of Assets

The value of cash, investments and other property belonging to an OPEB plan, as used by the actuary for the purpose of an Actuarial Valuation.

Amortization Payment

That portion of the ADC that is designed to recognize interest on and to amortize the Unfunded Actuarial Accrued Liability.

Actuarially Determined Contributions ("ADC")

This is the employer's periodic required contribution to a defined benefit OPEB plan, calculated in accordance with the set of requirements for calculating actuarially determined OPEB information included in financial reports.

Attribution Period

The period of an employee's service to which the expected postretirement benefit obligation for that employee is assigned. The beginning of the attribution period is the employee's date of hire. The end of the attribution period is the time of assumed exit from OPEB active member status.

Benefit Payments

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a post employment benefit plan, including health care benefits and life insurance not provided through a retirement program.

GASB 74

The statement that establishes financial reporting standards for postemployment benefit <u>plans</u> other than retirement programs.

GASB 75

The statement that establishes financial reporting standards for <u>employers</u> that sponsor postemployment benefits other than retirement programs.

Net OPEB Obligation

This is the cumulative difference since the effective date of this statement between annual OPEB cost and the employer's contributions to the plan, including the OPEB liability (asset) at transition, if any, and excluding (a) short-term differences and (b) unpaid contributions that have been converted to OPEB related debt.

Normal Cost

That portion of the Actuarial Present Value of OPEB plan benefits and expenses which is allocated to a valuation year by the Actuarial Cost Method.

Other Postemployment Benefits ("OPEB")

This refers to postemployment benefits other than retirement program benefits, including healthcare benefits regardless of the type of plan that provides them, and all other postemployment benefits provided separately from a retirement program, excluding benefits defined as termination benefits or offers.

Present Value of Future Benefits

This is the value, as of the applicable date, of future payments for benefits and expenses under the Plan, where each payment is:

- (a) Multiplied by the probability of the event occurring on which the payment is conditioned, such as the probability of survival, death, disability, termination of employment, etc.; and
- (b) Discounted at the assumed discount rate.

Projected Benefits

Those OPEB plan benefit amounts which are expected to be paid at various future times under a particular set of Actuarial Assumptions, taking into account such items as the effect of advancement in age and past and anticipated future compensation and service credits.

Substantive Plan

The terms of the OPEB plan as understood by an employer that provides postretirement benefits and the employees who render services in exchange for those benefits. The substantive plan is the basis for the accounting for the plan.

Trend Rate

The rate of increase in per person health costs paid by a plan as a result of factors such as price increases, utilization of healthcare services, plan design, and technological developments.

Unfunded Actuarial Accrued Liability

The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets.

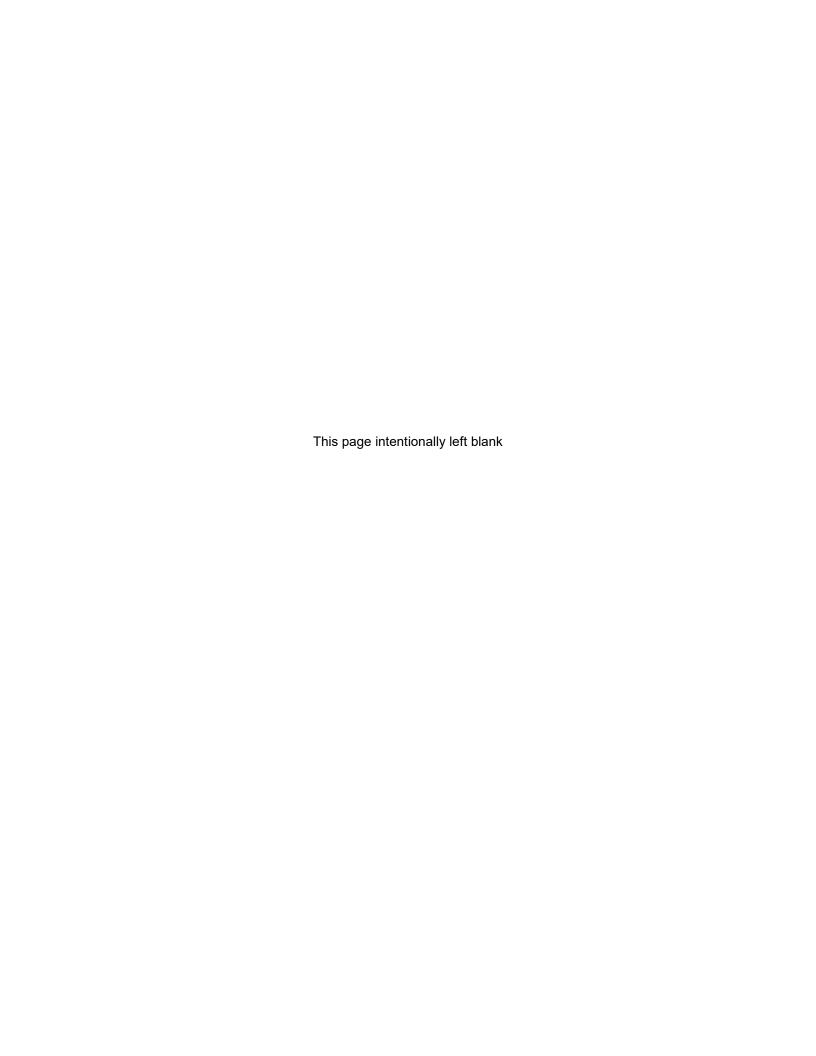

Appendix E: Medical Plan Comparisons

Comparisons are from the following areas of the LACERA website:

impaired ear every three years.

Carrier Notes:

Anthem Blue Cross Plans I, II, and Prudent Buyer

Coinsurance payment is the percentage of eligible

charges after you meet
the plan deductible, unless
otherwise noted. All plan
reimbursements are based
on negotiated rates or usual
and customary charges.
Usual and Customary charges
are the maximum amounts
the plan will pay for a service
based on what providers in
that geographic area charge
for similar services or supplies.

¹ Indicates deductible waived.

Anthem Blue Cross II

² For non–Medicare members only.

Anthem Blue Cross I and II

³ Treatment must be due to an accidental injury while insured and treatment must be received within two years of accident.

HMOs

Medical care must be received from HMO or contracted provider, physician or facility.

Mental Health Benefits for California Base Contracts: refer to evidence of coverage.

UnitedHealthcare

- ⁴ Refer to UnitedHealthcare HMO Schedule of Benefits and Evidence of Coverage for detailed plan information.
- ⁵ Your PCP is your Preferred Care Provider in the UnitedHealthcare HMO.

COMPARISON OF MEDICAL PLANS

Effective July 1, 2021

Health Maintenance Organizations (HMOs) and

Medicare Advantage Prescription Drug (MA-PD) HMOs

- Kaiser Permanente Colorado
- Kaiser Permanente Georgia
- Kaiser Permanente Hawaii
- Kaiser Permanente Oregon
- Kaiser Permanente Washington

This chart represents a summary of benefits only. Additional benefit information is provided by each insurance carrier. This chart does not replace or modify the official documents, which legally govern each plan's operation.

The health plans and benefit designs available from the LACERA-administered options change when an enrolled member permanently moves outside the provider network area. Moving to a location outside the coverage area will impact your eligibility to be enrolled in the health plan, the benefit designs available and the rates you pay.

Note: The benefit levels contained in this booklet are subject to approval by the Centers for Medicare and Medicaid Services (CMS) and may be adjusted during the plan year.

BASIC (UNDER 65 OR OVER 65 WITHOUT MEDICARE COVERAGE) HMOs

	Kaiser Permanente - Colorado	Kaiser Permanente - Georgia

- No copay for bathroom durable medical equipment
- No copay for home-delivered meals
- No copay for inpatient custodial care up to 5 days in a facility. Medicare will not pay for a stay in a facility if the services received are primarily for those purposes.
- SilverSneakers by Tivity Health Fitness Program available at no extra cost.

² SCAN includes expanded coverage for Independent Living Power™ services, which are only available in Los Angeles, Orange, Riverside, San Bernardino, and San Diego Counties. Qualifying members are eligible for up to \$650 per month of these additional services.

³ Manual manipulation of the spine to correct subluxation that can be demonstrated by X-ray, when the manipulation is prescribed by plan physician and performed by plan provider.

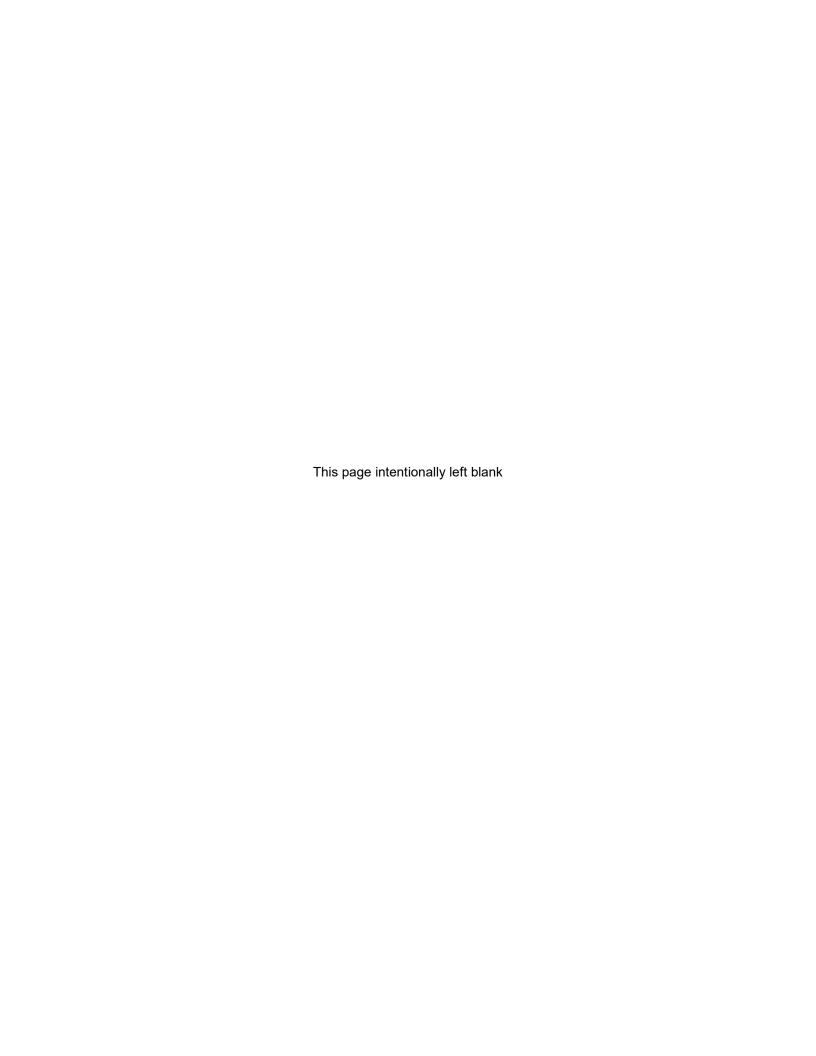

⁴ Copayment for specialty drugs will be prorated if you receive less than a 90-day supply.

⁵ Note: Visit or day limits do not apply to certain mental healthcare described in the evidence of coverage.

Appendix F: Firefighters Local 1014 Medical Plan

The description of the Firefighters Local 1014 Medical Plan is from selected pages of the following website:

https://www.local1014medical.org/docs/SPD%202019.pdf

Medical Benefits at a Glance

The "Benefits at a Glance" chart below is an outline of what the Plan covers and how costs are shared for covered services. Coverage for services by an out-of-network provider is limited to Reasonable and Customary charges as determined by Local 1014. For more detailed information about what the Plan does and does not cover, refer to the sections of this SPD: What the Medical Plan Covers and What the Medical Plan Does Not Cover.

Covered Expense	In-Network Out-of-Network		
Lifetime plan maximum	Unlii	mited	
Annual deductible	First \$200 of <i>allowable expenses</i> pe	r person; \$600 maximum per family	
Coinsurance	Once you meet the annual deductible, the <i>Plan</i> pays 90% and you pay 10% of most <i>allowable expenses</i> , up to the annual out-of-pocket limit. Once the annual out-of-pocket limit is reached, the <i>Plan</i> generally pays 100% of <i>allowable expenses</i> .	Once you meet the annual deductible, the <i>Plan</i> pays 70% and you pay 30% of most <i>allowable expenses</i> , up to the annual out-of-pocket limit. Once the annual out-of-pocket limit is reached, the <i>Plan</i> generally pays 100% of <i>allowable expenses</i> . You also remain responsible for all amounts that exceed <i>Reasonable and Customary charges</i> .	
Annual Out-of-Pocket Limit The combined In-Network and Out- of-Network limit is \$1,500. (Does not include annual deductibles, prescription drug or other copayments, non-covered expenses and amounts that exceed Reasonable and Customary)	\$1,000 per person or family per year (after you pay the deductible)	\$1,500 per person or family per year¹ (after you pay the deductible). You remain responsible for all amounts that exceed <i>Reasonable and Customary charges</i> after the out-of-pocket limit is met.	

¹ Allowable expenses for out-of-network services are limited to Reasonable and Customary charges, which are defined as the fees and charges customarily accepted as payment for Medically Necessary health care services and supplies in a specific geographical area.

Eligibility and Enrollment

Parts A and B

Premium

Reimbursement

Part D Solicitations

COBRA

Healthcare

Resources

Healthcare

Legislation

Part A: Hospital Coverage, Cost, and Eligibility

Medicare Part A is hospital insurance. It covers inpatient hospital care and surgery as well as skilled nursing facility, hospice, and home healthcare.

Medicare Part A is free to any person age 65 or older who is either:

- Eligible to receive a monthly Social Security benefit, or
- Eligible based on wages in which sufficient Medicare payroll taxes were paid.

You automatically apply for Medicare Part A when you apply for Social Security benefits. Your spouse may also qualify for Part A coverage at age 65, based on your eligibility for Social Security. If you are not eligible for free Part A coverage, you may purchase it.

For those not eligible for free coverage, the 2022 Medicare Part A premium amount is \$499 per month, depending on credits. See current income limits and premium amounts on the Medicare website.

Medicare Part A is free to any person under age 65 who is disabled and has either:

- Received Social Security disability benefits for 24 months as a worker,
 surviving spouse, or adult child of a retired, disabled, or deceased worker; or
- Accumulated a sufficient number of Social Security credits to be insured for Medicare and meets the requirements of the Social Security disability program.

For questions about eligibility for enrollment in Medicare Part A, <u>contact Social</u> <u>Security</u> directly.

Part B: Healthcare Coverage and Premium Structure

Part B Supplemental Medicare Insurance covers physician, lab, testing, and other costs. When you enroll in Medicare Part A, you are automatically enrolled in Medicare Part B unless you decline it. This rule applies to people age 65 or older and to those who are disabled under age 65.

If you pay a premium for Plan A, you must enroll in Part B if you also desire that coverage. Part B coverage is ordinarily deducted from your Social Security benefit.

The standard Medicare Part B monthly premium amount for 2022 is \$170.10.

If you select a LACERA-administered Medicare plan, the County may reimburse you for the Part B premium amount. This <u>reimbursement program</u> is subject to annual review by the Board of Supervisors.

If your modified adjusted gross income (MAGI) as reported on your IRS tax return from the previous two years is above a certain amount, you'll pay the standard premium amount plus an income-related monthly adjustment amount (IRMAA), an extra charge added to your premium. See a chart with <u>current income limits</u> <u>and premium amounts</u> on the Medicare website to see if you are subject to an IRMAA, or <u>contact Social Security</u> for more information.

Appendix I: Historical Information

This section presents historical statistical information on LACERA's membership, liabilities, assets, and costs. There is also a history of changes.

Table I-1: Membership Data

		Membership		
Valuation			Retirees and	
Date		Vested	Survivors	Payroll
(July 1)	Actives	Terminateds	with Medical	(Millions)
2006	88,581	7,450	39,078	\$5,307.2
2008	94,415	8,074	40,444	\$6,259.2
2010	94,343	7,917	41,786	\$6,732.7
2012	91,898	7,835	43,897	\$6,630.0
2014	92,393	8,069	45,825	\$6,764.0
2016	95,295	8,207	47,903	\$7,268.6
2017	97,149	8,302	49,109	\$7,743.0
2018	98,415	8,434	50,271	\$7,880.3
2019	99,128	8,593	51,499	\$8,215.4
2020	100,051	8,631	52,589	\$8,682.2
2021	99,044	8,752	53,529	\$8,981.7
